

124R™

- YEAR ROUND TRACTION
- LONG ORIGINAL TREAD LIFE
- BUILT FOR LONG LASTING VALUE

LONG-LASTING, ALL-WEATHER PERFORMANCE

Available in sizes from 19.5" - 22.5", the all-new Yokohama 124R is a long-lasting, all-position radial with a deeply-siped tread engineered to keep your regional pick-up and delivery fleet moving year round. The 124R meets the industry's required performance criteria for severe snow service and will carry the three-peak mountain snowflake symbol on the sidewall.

DEEP SIPES
Deeply-siped ribs provide outstanding wet and snow braking creating traction so powerful the 124R carries the severe snow service designation.

SERPENTINE GROOVES
Four wavy circumferential grooves promote even wear and provide optimized traction in the wet and snow.

EXTRA WIDE TREAD
Promotes better dispersal of contact pressure with the road to deliver longer tread life.

RIGID SHOULDER RIBS
Reduce shoulder step-down wear and enhance driving stability.

ROCK SHIELD PLATFORMS
Reduce stone and debris penetration for improved casing life, durability, and retreadability.
